

Still the leader in efficient fly control.

Maxforce®

New products come and go. But Bayer Maxforce continues to immediately and effectively alleviate your customers' fly problems. From spot bait to granular solutions, Maxforce has a treatment option designed for every occasion.

The two reasons we're #1 in fly control.

Maxforce[®] FLY SPOT BAIT

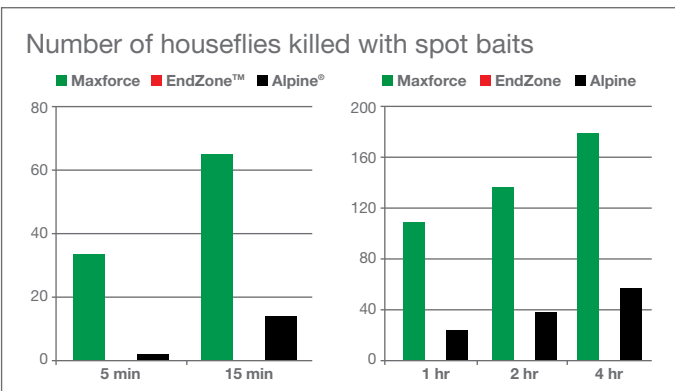

Maxforce Fly Spot Bait provides an unobtrusive way to control house flies both indoors and outdoors, including non-food areas of commercial food-handling establishments and animal facilities. Powerful attractants combine with the active ingredient imidacloprid to kill flies in 60 seconds or less. This product provides immediate results with a long residual.

Easy application, long-lasting control

- Immediate results
- Long residual
 - Up to 6 weeks indoors
 - Up to 30 days outdoors
- Treat less surface area compared to contact killing sprays
- Sprayable formulation
- Low odor

Super economical

- Maxforce Fly Spot Bait costs up to 75% less per fl. oz. than other competitive spray baits.

OE14USABYN-EKD1, OE14USAB7D-EKD2 | Bayer Environmental Science, Clayton, NC
EndZone did not knockdown or kill any houseflies within 4 hours. Alpine Pressurized Fly Bait is a true aerosol (petroleum propellants) containing 0.5% dinotefuran. It does **not** contain z-9-tricosene (pheromone) nor the food attractants that make Maxforce special.

Maxforce[®] GRANULAR FLY BAIT

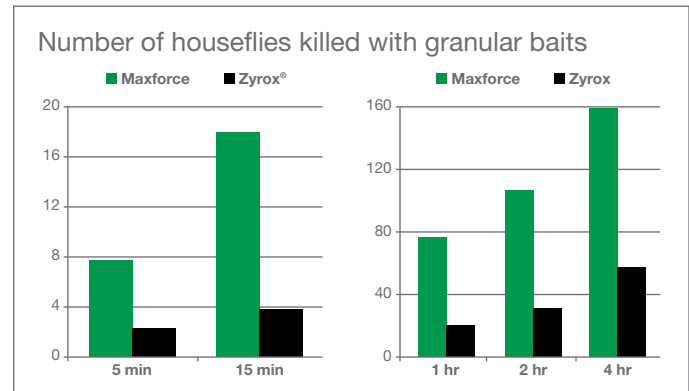

Maxforce Granular Fly Bait kills flies in 60 seconds, luring them to their death with four powerful attractants: irresistible aroma, seductive pheromone, color and sugar base. Application options include applying this product as a broadcast treatment, placing it in bait stations or dissolving it in water to paint on surfaces.

Long-lasting, responsible fly control

- Kills flies for up to 30 days for consistent fly control between applications
- Labeled for use around the outside of structures and partially enclosed or protected areas, including commercial and agricultural production facilities
- Contains Bitrex[®] bittering agent
- Ideal for use around dumpsters, garbage compactors, outdoor dining areas and loading docks

Control your spending

- Maxforce Granular Fly Bait costs up to 50% less than the leading competitor.

OE14USAB7E-EKD2 | Bayer Environmental Science, Clayton, NC
Syngenta's Zyrox Fly Bait is a granular formulation containing 0.5% cyantraniliprole. Its bait matrix does **not** contain z-9-tricosene (pheromone) nor the food attractants that make Maxforce special.
