SureKill's Liquid Pro Kit is essential for IPM Programs to apply liquid insecticides to kill flying and crawling insects. This non-pressurized system is compact and easy to use with automatic refilling to eliminate pumping. The SureKill Liquid Pro Kit is designed with the technician in mind and comes complete with 1 quart polypropylene tank, flexible industrial hose, deluxe belt holster and durable and light ergonomic applicator gun. The compact belt design allows for discreet applications in sensitive accounts and also provides hands-free mobility to perform proper IPM inspections.
