

SPECIALTY SPRAYERS

Wood Treatment System (WTS)

The B&G Wood Treatment System produces 10-15 times the volume of liquid as compared to a traditional foamer and 5 times more capacity as compared to typical fan sprays. This ensures that the chemical can penetrate deeper than any other method.

- Delivers liquid or foam insecticide
- 3-gallon tank, 30' or 50' hose
- Compressor maintains tank pressure, adjustable to 50 psi.
- Ideal for pre-treatments of structural wood, sub-slab re-treatments for termites
- 220V Models available. Contact B&G for more information.

**Creates Both
Foam & Liquid**

DESCRIPTION	ORDER #
WTS-Standard 30' of hose, single surface tip, and wall void tip	24040000
WTS-Deluxe 50' of hose, cart handle extender, single 6" surface tip, wall void tip, dual 10" surface tip, and pressure injection tip	24040001
