

# DETEX<sup>®</sup> SOFT BAIT

PATENT PENDING

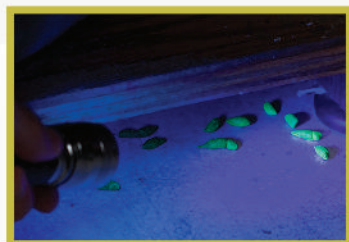

WITH  
LUMITRACK<sup>®</sup>

## NON-TOXIC MONITORING SOFT BAIT WITH LUMITRACK

### PRODUCT FEATURES:

- ▶ Essential part of IPM program in an environment where rodents are accustomed to fatty diets
- ▶ Highly palatable bait works well as a pre-bait option
  - Use in conjunction with Detex<sup>®</sup> Blox with Lumitrack<sup>®</sup> to trial rodent preferences
- ▶ Made with Lumitrack<sup>®</sup>
  - Causes rodent droppings to glow under UV light to help identify and track rodents faster and easier
  - Aids in finding entry points, pathways, and harborage areas
  - Helps PMPs place rodenticides and traps more effectively
- ▶ Developed for sustained palatability
- ▶ Extruded hole in center of bait for easy and consistent placement
- ▶ Weatherable
  - Mold and moisture resistant
  - High heat resistance
  - Not affected by freezing temperatures
- ▶ Ideal for sensitive accounts
