GOOSE SCRAM

PROFESSIONAL

Granular Goose REPELLENT

FOR
organic
gardening

Protects
Approx.
7,700
Square
Feet

DESIGNED & FORMULATED FOR PROFESSIONAL USE:

• PEST CONTROL OPERATORS • LANDSCAPERS • GROUNDS & GOLF COURSE SUPERINTENDENTS • ALL LANDSCAPE INSTALLATION & MAINTENANCE PROFESSIONALS

GENERAL APPLICATION INSTRUCTIONS: On all uses. Apply first application at a rate of **1 pound per 350 square feet**. Refer to recommended spreader settings. **FOR BEST CONTROL RE-APPLY IN 14 DAYS.** Monitor the area and reapply when evidence of geese encroaching through the treated area is noticed. **Application should last 20-25 days.**

PONDS, LAKES RIVERS: Application should be done up to the water beginning at the waters edge. Apply two strips approximately a band 30 feet wide for the areas seeking control in next to the water. If only doing a portion of the water front you should also run a border up the side of the area of control.

OPEN LANDING SPACES: Application should be done in 15 foot wide strips with 10 feet between the strips. This would be on landing areas and other spaces of turf encroached on by geese. If area continues to be used by geese then cover entire area leaving no strips. **Apply material in opposite direction from the first application.**

OPEN AREAS: Apply 30 ft. perimeter bands anywhere geese are walking onto property from other areas to prevent them from entering.

NESTING: Apply an EPIC cloth bag filled with Goose Scram Professional™ directly in nest.

GOLF GREENS: Do not apply on greens. Only apply to fringe and rough areas adjacent to greens. Application should be done at the edge of the green with material completely around the green. If goose population is heavy then do two strips around the green with coverage of approximately 30 feet wide in a 30 inch band around the green.

ORGANIC GARDENING: Can be used around garden beds along drip line. This will stop the problem and only a single band nearest the bed will be needed for maintenance applications going forward.

PRECAUTIONARY STATEMENTS: Wash skin after use. Avoid contact with eyes or cuts. If in eyes, flush with water 15-20 minutes. *Call Poison Center or doctor for treatment.* **Storage:** Store in original sealed container. Do not contaminate water, food or feed by storage or disposal. Do not apply directly to water. **Disposal:** Do not reuse empty container. Dispose of properly. Buyer assumes all responsibility for safety & use not in accordance with directions.

Active Ingredients			
White Thyme	0.60%	White Pepper	2.25%
