NET WEIGHT .75 OZ. (21g)

INSTRUCTIONS FOR USE:

As quickly as possible make cuttings, dip in Hormex Rooting Powder, and plant.

1. Cuttings should be moistened before treatment, then shake off excess moisture.
2. Dip base of cuttings into Hormex Rooting Powder.
3. Tap cutting to remove excess powder.
4. Plant treated cuttings in rooting media, being careful not to rub off rooting powder when planting.

*Do not return unused product to bulk container.

Inhibition of root formation is possible by the use of too high a strength of rooting powder. It is essential for successful propagation that the proper strength rooting powder for the species involved be chosen. Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry area. Always store in the original container. Store away from food and pet food.

Container Handling: Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: Seller makes no warranty or guarantee of any kind, express or implied, concerning effects of use of this product, other than those specified on this label. Buyer or user accepts all responsibility for results due to misuse or improper handling of this product.
