

TRIMEC® 992

BROADLEAF HERBICIDE

Broadleaf weed control at an economical price

WHAT IT IS

Trimec® 992 Broadleaf Herbicide provides rapid control of clover, dandelion, knotweed, henbit, chickweed, plantain, spurge, and many other listed broadleaf weeds. Developed for the professional lawn care operator, Trimec 992 is formulated to reduce cost and provide effective control – some weeds begin to show injury within hours. Trimec 992 is rainfast in as little as eight hours, and treated areas can be reseeded in three weeks.

WHAT IT DOES

Trimec 992 controls:

- Dandelion
- Plantain
- Clover
- Knotweed
- Henbit
- Chickweed
- Spurge
- More than 90 listed weeds

Ideal for use on:

- Residential lawns
- Commercial property
- Golf course fairways and roughs
- Sports turf
- Sod farms
- Other non-crop turf areas

Labeled for use on:

- Fescue - tall, red, and fine leaf
- Bluegrass - Kentucky and annual
- Ryegrass - annual and perennial
- Bermudagrass – common and hybrid
- Zoysiagrass
- Buffalograss
- Bahiagrass
