

Electricity savings without compromising on fly control efficacy are even more relevant when a higher number of units is concerned!

Reduce your environmental impact and your energy bills with the Nemesis[®] Quattro, the latest electronic UV fly killer from PestWest[®].

As a responsible manufacturer of electronic products, PestWest has responded to the demands of the retail, food, packaging and agricultural industries for more energy efficient equipment.

Nemesis[®] QUATTRO

Nemesis® QUATTRO

Our new generation of electronic UV fly killers uses a high frequency electronic ballast combined with unique 14 Watt T5 PestWest Quantum® fluorescent tubes which are on the cutting edge of energy efficient lighting technology.

The Nemesis Quattro attracts flying insects efficiently and economically onto a high voltage killing grid to eradicate them.

The Nemesis Quattro is also available as an IP24 certified 'splashproof' unit, which can withstand exposure to high humidity, water splashes and corrosive atmospheres.

All PestWest units are CE marked and carry the required European approvals. All models come with a 3-year guarantee (excluding consumables).

DIMENSIONS

H: 42cm W: 65cm D: 18cm

WEIGHT

12kg

COVERAGE

Wall mounted: 240m² - Ceiling-suspended: 480m²

FINISH

 White  Stainless Steel

TUBE DATA

- 4 x 14-Watt T5 PestWest Quantum tubes
- Shatterproof coating with industry compliant FEP
- Powered by an electronic ballast
