FORMULATION!

Introducing the Advantage Plus Pellet Line

Aquatrols is pleased to introduce the next generation of Advantage pellets: the **Advantage Plus pellet line**. Featuring a superior formulation, the Advantage Plus line is a complete and balanced system for delivering improved performance during syringing and hand watering.

- Superior Advantage Plus formulation to improve hand watering
- Distributes applied water more uniformly into the soil profile
- Pellet stays intact and dissolves evenly during application

THE ADVANTAGE PLUS PELLETT LINE:

Along with the standard **Advantage Plus** pellet, two new formulations are available for turf managers seeking additional benefits during hand watering: **Advantage Plus HF** and **Advantage Plus Seaweed**.

- Superior formulation combined with a unique acid package to:
 - Aid in hydration
 - Improve plant vigor
 - Increase stress tolerance
 - Promote more complete root development

- Combined with high quality seaweed extract
- Seaweed:
 - Promotes fast recovery of stressed turf
 - Stimulates root growth
 - Promotes the growth of healthy, vigorous turfgrass

Aquatrols is pleased to introduce the next generation of Advantage pellets: the **Advantage Plus pellet line**. Featuring a superior formulation, the Advantage Plus line is a complete and balanced system for delivering improved performance during syringing and hand watering.

Along with the standard **Advantage Plus** pellet, two new formulations are available for superintendents seeking additional benefits during hand watering: **Advantage Plus Humic & Fulvic Acid** and **Advantage Plus Seaweed**.

THE ADVANTAGE PLUS PELLETT LINE:
