SureKill®

Advanced Insecticide Products

Effective insect control using liquids, aerosols, dry formulation and metered products for a versatile solution to pest management

Product Guide

NEOGEN®

AEROSOLS

SureKill Flusher (#0101011)

17 oz., 12 per case

High performing dry fog that instantly flushes bed bugs, cockroaches and other insects from deep harborage for more effective pest control. SureKill Flusher is the ideal detection tool that provides initial kill on contact in a non-flammable, high performance dry fog providing peace of mind around ignition sources. An integral part of any IPM program, SureKill Flusher is for use in schools, food storage areas, food processing plants, restaurants, institutions and other public buildings.

SureKill CT-511® (#0731011)

17 oz., 12 per case

SureKill CT-511 is a dual-synergized pyrethrum formula that kills and repels common flying and crawling insects including, house flies, gnats, mosquitoes, spiders, ants, and bed bugs (see label for a complete listing). SureKill CT-511 can be used as a space spray, contact spray, and in cracks and crevices. When used as directed, it can be applied in bottling plants, breweries, homes, restaurants, schools and other buildings as listed on the label.

SureKill Total Release (#0111511)

6 oz., 12 per case

SureKill Total Release fogger combines fast flushing, quick knockdown and excellent residual control in a water-based formula for use indoors, in food and non-food areas. SureKill Total Release kills ants, cockroaches, confused flour beetles, crickets, fleas, houseflies, mosquitoes, rice weevils, saw-toothed grain beetles, small flying moths, sowbugs, spiders, and ticks.

METERED PRODUCTS

ProMist'r Dispenser (#CT89500)

1.5 lb., 6 per case

Reliable automatic dispenser delivers a metered spray at selected intervals to rid an area of unwanted flying insects or odors. The ProMist'r is easy to open and refill, easy to program to spray at different time intervals with an option for day, night or 24 hour operation. Ideal for use in homes, restaurants, storage areas and many other indoor spaces where insects and odors can be a nuisance. Use SureKill LD-44T for insect control or use Neogen fragrances.

SureKill LD-44T™ (#0073011)

6 oz., 12 per case

SureKill LD-44T is a dual-synergist 1.0% Pyrethrin metered insect aerosol for use in the ProMist'r Dispenser. For use against flying insects such as flies, mosquitoes, gnats and moths in commercial food handling and preparation areas, stores, food processing plants, factories, hotels, offices, supermarkets, warehouses and bottling plants.
