

TOTAL CONTROL... ON THE FLY

THE TRAPPINGS OF SUCCESS START WITH BAITS & TRAPS FROM ZOËCON

Total Fly Control from Zoëcon can help improve profitability with cost effective solutions that fit a variety of needs. In addition to insecticidal scatter baits and abatement strips, Zoëcon has a line of non-insecticidal sticky, jug and bag traps that add up to a comprehensive program for troublesome flies.

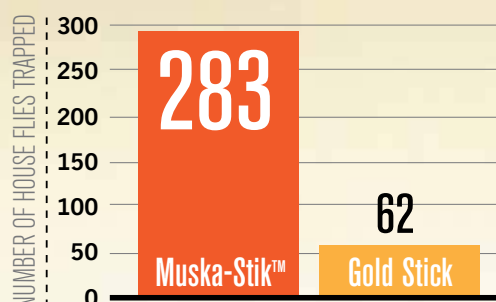

STIK WITH A WINNER... MUSCA-STIK™ & MUSCA-STIK JR™

Musca-Stik™ and Musca-Stik Jr.™ are insecticide-free, odor-free, indoor/outdoor sticky fly traps that attract flies two ways — Musca-Glo™ orange colored paper attracts flies visually while the powerful fly sex pheromone, Muscalure, doubles the attraction power.

In a side-by-side efficacy test* for attracting house flies, Musca-Stik™ outperformed a major competitor, attracting four times more flies.

SIDE-BY-SIDE EFFICACY TEST

Each stick was baited with their own attractants and set in 5 different positions side-by-side.

* Data on file.

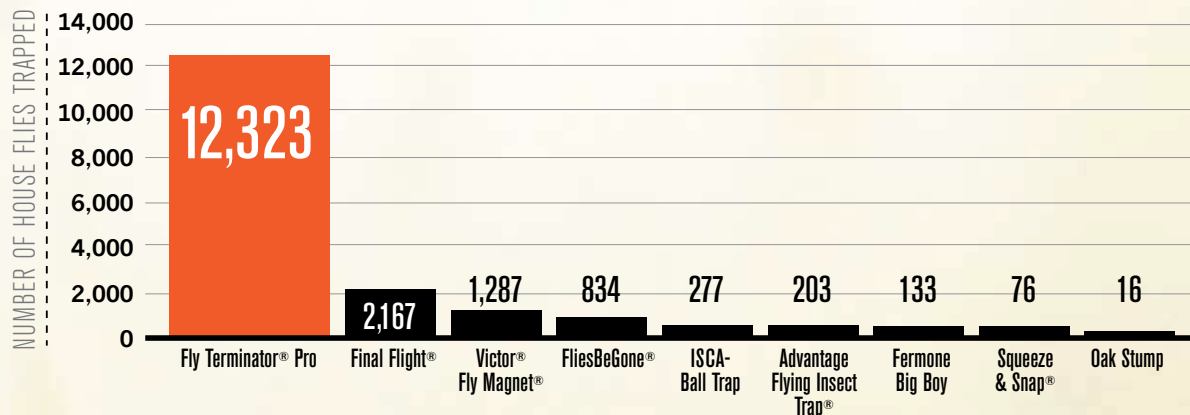

GET TRAPPED AT THE TOP WITH ZOËCON

Zoëcon carries an entire line of traps that come in different sizes to fit a wide variety of applications. These traps are insecticide-free and attract several fly species. They are a highly effective way to control flies in areas where baits and insecticides are not an option.

In a recent study conducted on four Florida dairy farms*, Fly Terminator® Pro outperformed several of its competitors by a wide margin in the number of house flies caught.

JUG TRAP EFFICACY TOTALS

These trials took place over a seven-day period on four different Florida dairy farms.

*Evaluation of commercial and field-expedient baited traps for house flies, *Musca domestica* L. (Diptera: Muscidae), *Journal of Vector Ecology*, 2009.

These traps perform. It makes sense to expand your service offerings by incorporating Total Fly Control into your toolbox. To learn more about the entire line of Total Fly Control products from Zoëcon visit zoecon.com.
