

# DUSTACIDE 6

## Dusticide 6 insecticide

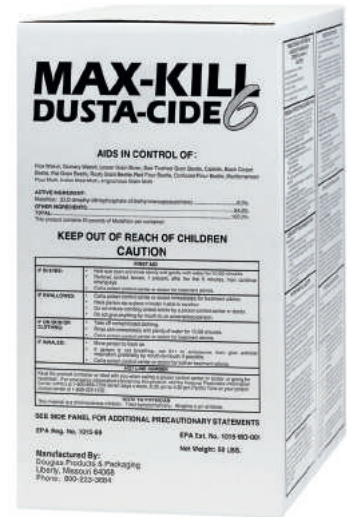

Dusticide 6 is a 6 percent malathion dust formulation that provides residual protection from insect damage to uninfested grain. Dusticide 6 label directions allow mixing during grain loading or transfer, or raking into the top 6 inches of stored commodity to form a protection surface barrier. Applied per label instructions, Dusticide 6 controls the adult and larvae stages of many insects. Dusticide 6 safeguards your stored grain investment in vertical silos, steel tanks, bunkers, granaries, flat buildings, warehouses or tarped facilities.

### Dusticide 6 protects major grains:

- Wheat
- Barley
- Corn
- Rye
- Oats

### Insects controlled by Dusticide 6:

- Rice weevil
- Granary weevil
- Cadelle
- Carpet beetle
- Lesser grain borer
- Indian meal moth
- Flat grain beetle
- Rusty grain beetle
- Confused flour beetle
- Sawtoothed grain beetle
- Mediterranean flour moth
- Angoumois grain moth

# VAPOCIDE

## Vapocide insecticide

Vapocide is a space and contact spray that also can be applied as a fog. This label versatility makes it useful in a variety of locations, and a 24-hour re-entry interval makes it efficient to use. Vapocide is designed for use in the control of infested facilities that contain nonperishable, packaged, bagged, raw or processed food commodities.

### Use on many raw commodities:

- Cocoa beans
- Nuts
- Tobacco
- Field-dried beans
- Grains, either bagged or bulk

### Processed foods:

- Flour
- Sugar
- Cereal
- Crackers
- Packaged goods

### Approved application sites:

- Bulk bins
- Warehouses
- Grain storage facilities
- Silos
- Food processing plants
