

In the fight against pest infestation, you can't afford to let your guard down... Tengard your customers against persistent pests.

Professional Pest Control

Tengard®SFR delivers more than effective pest control... Tengard provides peace of mind.

Tengard SFR protects your home, family, friends, customers, co-workers and business associates from health risks associated with many well-known pests. Ants, bees, bedbugs, carpet beetles, cockroaches, deer ticks, dog ticks, fire ants, flour beetles, fleas (indoor broadcast flea control), lice mange, mosquitoes, scabies, mites, scorpions, spiders, wasps and sub-terranean termites.

Pest control professionals can also use Tengard SFR to treat lumber, posts, poles, foundations, concrete slabs, masonry or other hollow blocks, basements, crawl spaces, and residential living spaces.

Desired Gallons of Finished Solution	Emulsion Concentration (Tengard SFR + Water)		
	0.5%	1.0%	2.0%
1	1 2/3 fl oz + 126 1/3 fl oz water	3 1/3 fl oz + 124 2/3 fl oz water	6 2/3 fl oz + 121 1/3 fl oz water
5	8 1/3 fl oz + 4 gal, 119 2/3 fl oz water	16 2/3 fl oz + 4 gal, 111 1/3 fl oz water	33 1/3 fl oz + 4 gal, 94 2/3 fl oz water
10	16 2/3 fl oz + 9 gal, 111 1/3 fl oz water	33 1/3 fl oz + 9 gal, 94 2/3 fl oz water	66 2/3 fl oz + 9 gal, 61 1/3 fl oz water

*Please refer to label for specific concentration usage for indoor applications, pre-construction, and post-construction applications.

Livestock Premise & Livestock Spray Utility

Tengard SFR provides flexible methods of protection for your valuable livestock and the premises they inhabit.

Livestock ranchers, farmers and pest control specialists trust the protection from pest infestation that Tengard SFR provides.

Tengard SFR can be used as a livestock spray to protect poultry, dairy and beef cattle, sheep, swine, goats and horses from troublesome pests.

Livestock premises such as poultry houses, barns, dairies, stables and kennels can be protected by Tengard SFR, providing even more security for your livestock. It can be applied as a spray (indoor, outdoor, or overhead system) and as an indoor fog or mist offering convenient, flexible applications.

Application/Usage	Spray	Fog or Mist	Overhead Spray
Livestock premises*	4 fl oz to 10.0 - 12.5 gal water	1.5 fl oz to 2.0 fl oz to 1 gal water	4 fl oz to 10 gal mineral oil
Livestock*	4 fl oz to 2.5 - 50 gal water		

*Please refer to label for specific livestock/livestock premise pest control and application rates which may require more or less concentration than provided in the table above which provides general use guidelines.

IRAC class: Group 3A insecticide
Formulation: Emulsified concentrate
Package size: 12 x 1 quart, 4 x 1.25 gallon

Turf & Ornamental protection

- **Reliable, proven results**
- **Superior residual control**
- **Low volatility**
- **Virtually odor-free**
- **Flexible, broad-use label**

Tengard® SFR is an effective insecticide, controlling over 75 common insects such as ants, aphids, borers, boxelder bugs, beetles, black-legged ticks, centipedes,

crickets, deer ticks, fleas, flies, gypsy moths, Japanese beetles, leaf-feeding caterpillars, millipedes, silverfish and webworms. Tengard also controls subterranean termites and can be applied both pre-construction and post-construction.

Tengard SFR provides effective perimeter insect control for lawns, ornamental trees and shrubs around residential, institutional, public, commercial and industrial buildings. Tengard also provides excellent protection for parks, recreational areas and athletic fields. Additionally, Tengard can be effectively used on pre-construction lumber and logs, buildings and other structures.
