

Power-Kill™ Mouse Trap

Instructions

1. Remove the clip securing the kill bar.
2. Bait the trap using peanut butter or anything high in protein like chocolate or hazelnut spread in the bait trough provided. Be sure to use a Q-tip, toothpick or another tool to bait so your scent is not transferred onto the trap.
3. To set, pull back the kill bar until it clicks and the trap locks in place.
4. Place the trap where you have seen signs of rodent activity or along the wall where rodents primarily travel. The end of the trap with the bait trough should be placed flush against the wall.
5. After the mouse is caught, properly dispose of the dead rodent. The trap can either be discarded or reused.
