CRAWL CURTAIN*

*YCS-3CC-100, 3'x100'
CRAWL CURTAIN*

Product Blue /White

The wall and pier curtain liners are pre-rolled to fit the job, speeding up the install process. The built in activation strip and the YCS adhesive will seal, permanently, to virtually any foundation, brick, block, field stone, dirty, wet, with NO mechanical fasteners.

This is the most efficient and fastest way to attach and seal a crawl space. Safe, simple, sealed, in half the time. Please see our videos.

**Pre-rolled for your convenience, to help prevent dust, dirt or moisture for better tape seams, saves labor time and material waste.*

For higher foundation walls consider using YCS Wall Attachment Tape.
