

EDGE®

## EDGE®

Developed to be the most effective glueboard flylight on the market, Edge® is designed around patented (European Patent No. EP2269448B) glueboard technology to catch significantly more flying insects than traditional glueboards.

As the glueboard is inserted into the flylight it self-folds at the desired points, creating a unique form around high efficacy Synergetic® UV bulbs. This unique design forms edges, proven to be more attractive to flies, maximizes useful UV light output, and creates **a 30% larger glue area than traditional glueboards, creating a staggering 31.5% increase on a normal catch rate!**

The unique glueboard form provides three features shown to better catch flying insects:

1. The glueboard forms edges, proven to be more attractive to flies
2. 30% larger glue area than traditional 'flat' glueboards
3. The glue area is equidistant from the UV bulbs, maximizing the useful glue area

OFFERING A 31.5% INCREASE IN CATCH RATE

## FEATURES

Unique patented (European Patent No. EP2269448B) glueboard technology

Catches 31.5% more flies than traditional glueboards

Swing down front guard allows simple and quick servicing, with full access to bulbs and glueboard

Unique dual wavelength Synergetic® technology for an increased catch

Simple wall, ceiling or counter top mounting

Contemporary market leading design

### PRODUCT CODE

ZF105/110v

### DESCRIPTION

Edge®, 30 watt, Stainless

### DIMENSIONS (INCHES) H x W x D

14 3/4 x 22 1/4 x 4 1/4

### COVERAGE (ft²)

1300

### BULBS

2 x TGX15-18

### GLUEBOARDS

1 x INF198

### WEIGHT (lbs)

12

### ROOM COVERAGE

**1300 ft²**

### APPLICATION

Commercial Kitchen  
+ Industrial Food  
Preparation  
+ Front of House
