

MIC DROP™

FOR PLANT & SOIL HEALTH

Photosynthesis

Better Color

More Energy

MIC DROP is a blend of comprehensive micronutrients, a proprietary sugar package, root-driving sea kelp, and carbon, all powered by our *REACTION™* technology. Designed for optimal nutrient absorption, **MIC DROP** delivers intense, long lasting color while enhancing the biology in any soil. **MIC DROP** has been university proven to increase a plant's photosynthetic ability. More photosynthesis means more energy and stronger turf!

GUARANTEED NUTRITIONAL ANALYSIS

Potash K ₂ O	1.00%
Magnesium	1.25%
Iron	3.50%
Manganese	0.63%
Zinc	0.70%
Boron	0.08%

Derived from: potassium sulfate, magnesium sulfate, ferrous sulfate, manganese sulfate, zinc sulfate, boric acid, kelp extracts, proprietary sugars and organic acids.

Net weight: 10.67 lbs/ gallon
