syngenta®

MOST WANTED WEEDS

In bermudagrass and zoysiagrass

Trust the Syngenta herbicide portfolio to control the most wanted weeds on your hit list.

An agronomic program including Barricade® 4L, Barricade on fertilizer and Monument® 75WG herbicides offers broad-spectrum control of weeds and sedges. This program delivers effective control of the toughest and most common weeds in bermudagrass and/or zoysiagrass including crabgrass, goosegrass, nutsedge and kyllinga.

With application flexibility, you have options to apply Barricade in single or split application as a spray or on-fertilizer formulation in early spring to achieve long-lasting, pre-emergence weed control. Additionally, Monument will provide post-emergence control of sedge and other challenging weeds like rescuegrass, clover and spurge.

Herbicide Application Recommendations

	February to Early March	Mid April to May	Two months after first Monument app
	Crabgrass Control	**Goosegrass & Sedge Control**	**Sedges & Kyllinga Control**
Option 1 (split Barricade applications)	Barricade 4FL at 24 oz/A or 0.75 ai/A if utilizing fertilizer combo (a 0.38% Barricade load is 200 lbs./A fertilizer)	Barricade 4FL at 24 oz/A + Monument 10 g/A (2 packs) + NIS + Pennant Magnum® herbicide (see labeled rates)	Monument 10 – 15 g/A (2-3 packs) + NIS + Pennant Magnum herbicide (see labeled rates)
Option 2	Barricade 4FL at 48 oz/A or 1.5 ai/A if using fertilizer combo (a 0.48% Barricade load, is 312 lbs./A fertilizer)	Monument 10 g/A (2 packs) + NIS + Pennant Magnum herbicide (see labeled rates)	
Option 3 (Transition zone where winter injury is a concern)	Ronstar® G on fertilizer at 2 to 3 lbs ai/A. Various products available	Barricade 4FL at 32 oz/A + Monument 10g/A (2 packs) + NIS + Pennant Magnum herbicide (see labeled rates)	

®

With Barricade and Monument, you can control these troublesome weeds and more:

- Barnyardgrass
- Annual Bluegrass (*Poa annua*)
- Broadleaf signalgrass
- Carpetweed
- Cock's-Comb Kyllinga
- Crabgrass (Large, Smooth)
- Crowfootgrass
- Wooly Cupgrass
- Dandelion
- Annual Foxtails
- Goosegrass
- Itchgrass
- Junglerice
- Knotweed
- Lovegrass
- Nutsedge (Purple, Yellow)
- Panicum, (Texas, Fall, Browntop)
- Florida Pusley
- Rabbitsfoot clover
- Rescuegrass
- Ryegrass
- Annual Sedge
- Broadleaf Signalgrass
- Persian Speedwell
- Sprangletop
- Prostrate Spurge
- Witchgrass
- Yellow Woodsorrel (from seed)

Goosegrass

Green Kyllinga

Large crabgrass

Purple nutsedge

Testimonials

Historically, during the spring and summer, crabgrass, goosegrass and Virginia buttonweed have been very hard to control on my course. I have had great success using a herbicide program centered on Barricade and Monument 75WG herbicides. My course is 260 acres, and I can count the number of crabgrass plants on one hand. Several tee boxes that used to be covered with goosegrass are now completely clear of it. This year, I also introduced Pennant Magnum herbicide to my program and my course looks better than it ever has before.

Patrick O'Neal
Woodforest Golf Club
Montgomery, Texas

Barricade and Monument 75WG herbicides are my primary solution for weeds in the spring. I apply in March and have a clean golf course by summer – simple as that. I have tried a lot of different products, but nothing has given me weed control or turf safety comparable to Barricade and Monument.

Terry Hutcherson, CGCS
Lakeside Country Club
Houston, Texas

I use a single application of Monument 75WG herbicide for early nutsedge control to get me through the summer, and I use a split application of Barricade herbicide to control goosegrass and crabgrass. This herbicide program plays a big role in my overall agronomic program. I enjoy not having to spot spray and make emergency curative applications, but I think what I love the most is being a course that is known by its members as being clean and weed-free.

Chris Erickson
Black Hawk Country Club
Richmond, Texas

As a GreenTrust® 365 program participant, customers who purchase Barricade on fertilizer before May 31, 2017 will qualify for rebates. For more information, please visit GreenTrust365.com.
