## AMS MANUAL BAIT STATION INSTALLATION EQUIPMENT

### AMS Augers

AMS Augers are used to dig holes that fit popular termite bait stations. Their bits and cutting heads help pull the auger into the ground with each twist of their handle. Regular Augers are used in most soil conditions, Mud Augers are designed for moist and sticky soils, Dutch Augers will help you get through heavily rooted areas, and Open-Faced Augers feature an aggressive cutting head that is great for muds, clays, and hard soils.
