

# Harpoon® Granular Aquatic Herbicide

## Control copper-sensitive aquatic plants without water use restrictions

Treat from the bottom up! **Harpoon®** Granular Aquatic Herbicide is a chelated copper granulate that sinks down to effectively control bottom-growing copper sensitive aquatic species.

### Advantages

- Ideal for sites where water use cannot be restricted
- Controls members of the Hydrocharitaceae family including Hydrilla, Egeria (Brazilian Elodea), Naiads and Elodea
- Also effective on Coontail, Water Lettuce, Water Hyacinth, Giant Salvinia, Common Salvinia, Myriophyllum spp., and members of the Potamogetonaceae family
- Also available in liquid formulation

### Application

- Broadcast evenly using spreader or blower.
- For small spot treatments, apply uniformly using spreader or hand scoop.

## Water Use Restrictions

Treated water can be used immediately for irrigating, animal consumption, swimming or fishing. **Do not use in waters containing Koi or hybrid goldfish.** Not intended for use in small volume, garden pond systems.

## Specifications

Active Ingredient(s)	9.87% Copper EDA (3.41% metallic copper)
Appearance	Purple granules
Dosing	40 - 80 lb./acre-ft

## Packaging

SKU Number	Unit Size	Case Count	Case Weight (lb.)	Pallet Count	Pallet Weight (lb.)
