

Proven to have more than 60% greater UV light output than traditional electric flylights

With an innovative, patented* open top design to maximise light output of the Synergetic® UV bulbs, this truly unique zapper flylight releases light from the back, sides and top of the unit, creating 67% more useful UV light output than traditional flylights utilizing the same power UV bulbs.

The unique Z-shaped killing grid provides a 20% larger fly killing area, ensuring that the unit easily copes with the increased number of flies attracted by the greater light output. Designed with serviceability in mind, the killing grid, deep catch tray and UV bulbs are easily cleaned and maintained whilst the tool free, drop down guard, also holds the catch tray during servicing making the unit quick and easy to service.

Independent tests show that the Allure30 attracted 448% more flies than the leading traditional 30 watt unit.

INNOVATIVE OPEN DESIGN

FEATURES

Innovative, patented* open top design gives maximum possible UV light output for increased efficacy

Unique 'Z Shaped' killing grid gives 20% larger useful killing area for increased efficacy

Large capacity, mains interlocked catch tray with anti-blow out folds

Patented dual wavelength Synergetic® technology for an increased catch

Tool free, swing down front guard for quick, simple servicing

Simple wall, ceiling or desk mounting

Contemporary market leading design

PRODUCT CODE

ZC010/110v

DESCRIPTION

Allure®, 30 Watt, Stainless

DIMENSIONS (INCHES) H x W x D

11¾ x 23 x 4¾

COVERAGE (ft²)

1300

BULBS

2 X TGX15-18

WEIGHT (lbs)

11

ROOM COVERAGE

1300 ft²

APPLICATION

Commercial
Backroom

* Patent pending
