**Edge**

Developed to be the most effective glueboard flylight on the market, Edge™ is designed around patented\* glueboard technology to catch significantly more flying insects than traditional glueboards.

**Halo**

With a contemporary, discreet aesthetic and commercial efficacy, Halo is the most versatile glueboard flylight available for use across a range of commercial applications.

**Allure**

Proven to have 60% greater UV light output than traditional electric grid flylights.

With an innovative, patented\* open top design to maximise light output of the Synergetic® UV bulbs, this truly unique zapper flylight releases light from the back, sides and top of the unit, creating 60% more useful UV light output than traditional flylights utilising the same power UV bulbs.

**Exocutor 80**

The Exocutor range is full of features designed to maximise useful UV light output, from the internal aluminium UV light reflectors, to the unique light scoops which allow light to exude from the corners of the unit as well as the front, back and sides.

**Flytrap Professional 30 and 80**

Flytrap Professional™ provides a professional and hygienic solution to insect control for sensitive areas such as food preparation areas. Designed to be the most effective professional unit on the market, Flytrap Professional™ gives 360° of light output and the simple glueboard and bulb replacement makes Flytrap Professional™ extremely service friendly.
